

Nippon India Mutual Fund – Nippon India ETF offerings

September 2024

Data as on September 30, 2024

What is an EXCHANGE TRADED FUND (ETF)?

An ETF is a MF Scheme or security that endeavors to replicate the value of an underlying i.e index or a commodity & listed on the exchange

About Exchange Traded Funds (ETFs)

ETFs are simple to understand and are transparent to track

Can be bought / sold like any other stock on the exchange (Where the scheme is listed) through terminals

Generally less expensive than investing in multiple individual securities.

Can be bought / sold anytime during market hours at real-time prices instead of end-of-day prices

Benefits of investing in ETFs – Key Highlights

Liquidity Management

- ETFs can be used to provide a liquidity buffer across the asset allocation.#

Portfolio Completion

- ETFs allow investors to gain exposure to an asset class that may be underrepresented in the asset allocation of investor's portfolio.

Cash Equitization

- ETFs assist in remaining fully invested while maintaining liquidity, thus minimizing the cash drag effect on the portfolio.

Portfolio Transitions

- Since ETFs are passive funds which may help to maintain market exposure while there are changes in sector/stock allocations in a portfolio, it avoids the risk of missing any market movement.

#Subject to the market condition and availability of spread and liquidity

An Open Ended Index Exchange Traded Scheme

• Investment Objective

The investment objective of the Scheme is to provide returns that, before expenses, closely correspond to the total returns of the Securities as represented by the Nifty CPSE Index, by investing in the Securities which are constituents of the Nifty CPSE Index in the same proportion as in the Index.

However, the performance of the Scheme may differ from that of underlying index due to tracking error. There can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

• About the Benchmark: Nifty CPSE Index

Nifty CPSE Index is constructed in order to facilitate Government of India's initiative to disinvest some of its stake in selected CPSEs. The government opted for ETF route for disinvestment. The ETF shall track the performance of the Nifty CPSE Index. The index values are to be calculated on free float market capitalization methodology. The index has base date of 01-Jan-2009 and base value of 1000.

Note: The performance of the scheme is benchmarked to the Total Return variant of the Index.
