Nippon Life India Asset Management Limited (NAM India) is one of the largest asset managers with more than 28 years of experience in managing wealth of investors with a robust distribution network in India and a global reach through its various subsidiaries.

Why Index Fund?

- ▶ **Less of Ambiguity:** The Index funds investment strategy & stock selection is clearly defined, holding stocks as per the underlying Index in the same weightages (subject to expense ratio & tracking error).
- ▶ **Diversification** – Buying a single unit offers diversification benefit in the entire index companies.
- ▶ **Low Cost** – Generally less expensive than investing in multiple individual securities/actively managed equity fund. (Low cost with respect to Total Expense Ratio)

Strategies used through Index based Equity Index Funds

- ▶ **Liquidity Management** – Index funds can be used for a given percentage of each asset class to provide a liquidity buffer across the asset allocation.
- ▶ **Portfolio Completion** – Index funds allow investors to gain exposure to an asset class that is under-represented in the asset allocation.
- ▶ **Cash Equitization** – Index funds assist in remaining fully invested into equity as per the allocation model, while maintaining liquidity, thus minimizing the cash drag effect on the portfolio.
- ▶ **Portfolio Transitions** – Since index funds are passive funds, they may help maintain market exposure while there are changes in sector/stock allocations in a portfolio, hence avoids the risk of missing any market movement.

Nippon India Nifty Bank Index Fund

Investment Objective: Nippon India Nifty Bank Index Fund

The investment objective of Nippon India Nifty Bank Index Fund is to provide investment returns that commensurate to the total returns of the securities as represented by the Nifty Bank Index before expenses, subject to tracking errors. However, there can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

Why Invest in Nippon India Nifty Bank Index Fund

- **Reduced Risk:** Elimination of non-systematic risk like stock picking and portfolio manager selection, by investing in Nippon India Nifty Bank Index Fund.
- **Convenience:** Will also allow non-demat account holders to seek exposure to Banking sector via investing through Nippon India Nifty Bank Index Fund.
- **SIP Investments:** Investors can avail the benefit of Systematic Investment Plan (SIP).
- **Low Cost:** Exposure to Banking sector via low cost^ index fund.

Notes: ^Low cost in terms of total expense ratio.
*Based on Nifty Bank Index Methodology

About Nifty Bank Index

Overview

The Nifty Bank Index is designed to reflect the behaviour and performance of the large and liquid banks. The index comprises of maximum of 12* stocks and base date of the index is January 1, 2000.

Index Methodology:

Eligibility Criteria for Selection of Constituent Stocks –

1. Companies should form part of NIFTY 500 at the time of review.
2. In case, the number of eligible stocks representing the sector within NIFTY 500 falls below 10, then deficit number of stocks shall be selected from the universe of stocks ranked within top 800 based on both average daily turnover and average daily full market capitalisation based on previous six months period data used for index rebalancing of NIFTY 500
3. Further, in case the number of eligible stocks in the universe is still less than 10, then the deficit number of stocks shall be selected from the universe of stocks ranked within top 1000, top 1100, top 1200 and so on, based on both average daily turnover and average daily full market capitalization based on previous six months period data, until at least 10 eligible stocks are obtained, subject to fulfilment of other inclusion criteria. If the number of eligible stocks is still less than 10, then the index may have less than 10 constituents
4. Companies should form a part of the Banking sector.
5. The company's trading frequency should be at least 90% in the last six months.
6. The Company should have a minimum listing history of 1 month as on the cutoff date.
7. Companies that are allowed to trade in F&O segment at NSE are only eligible to be a constituent of the index.
8. Final selection of 12 companies shall be done based on the free-float market capitalization of the companies.
9. Companies will be included if free-float market capitalisation is at least 1.5 times the free-float market capitalization of the smallest index constituent in respective index
10. Weightage of each stock in the index is calculated based on its free-float market capitalization such that no single stock shall be more than 33% and weightage of top 3 stocks cumulatively shall not be more than 62% at the time of rebalancing.

Index Re-Balancing:

Index is re-balanced on semi-annually in March & September.
