### Why Invest in Nippon India Credit Risk Fund

- Suitable fund for all kinds of interest rate scenario as the fund emphasis is on maintaining relatively high carry on an ongoing basis.
- The fund also endeavors to provide protection in a rising yield scenario on a steep yield curve mainly because of roll down in maturity and higher gross yields due to the exposure to high accrual assets.
- Dedicated credit team assessing the credit worthiness of the issuers enabling the fund manager to make investments in private sector credits.
- Tax efficient due to the indexation benefit available to debt fund if investment is long term as per definition of sec 2 (29A) of The Income Tax Act, 1961
- This fund is well positioned for investors with a holding period of 3 years

### Asset Allocation as on June 30, 2021

- To maintain a healthy Risk Return Ratio, within these asset classes the fund manager strives to maintain a balanced exposure in the portfolio through different rating profile.

### Current Investment Strategy

- The fund strategy is to benefit from accrual based returns by running a moderate duration portfolio which maintains a prudent balance in exposure towards short to medium tenor corporate bonds and PTCs.
- It endeavors to generate alpha by investing in well researched private sector credit exposures in the plain vanilla and structured space.
- To ensure reasonable liquidity in the portfolio at all points of time, the strategy is to ladder the portfolio in terms of maturity while striving to maintain modified duration in the range of 1.5 to 2.5 years.
- The fund will endeavor to maintain higher carry and run moderate duration strategy in line with market expectations.

**Note:** Above mentioned current investment strategy is based on the prevailing market conditions and is subject to change within the limits of the SID basis the fund manager's view
