About Nippon India Dynamic Bond Fund

It is an open-ended dynamic debt scheme with investing predominantly in State Development Loans (SDLs) maturing around 2030. It is suitable for Investors having an investment horizon more than 3 years.

Current Investment Strategy

- ❖ The Fund would invest predominantly into State Development Loans (SDLs). The Fund is also enabled to invest into PSU Bonds, at appropriate times
- ❖ Rating Profile: Mostly Sovereign Rating (tactical exposure to AAA PSU Bonds)
- ❖ The fund aims to capture the prevailing yields in SDLs with an endeavor to bring it down over the period of time

What are State Development Loans (SDLs)?

Bonds or dated securities issued by State Governments are called the State Development Loans (SDLs). Investment in these Government securities help generate optimal credit risk free returns. Like G-sec, SDLs qualify for Statutory Liquidity Ratio (SLR) of banks. They are also eligible as collaterals for borrowing through market repo as well as borrowing by eligible entities from the RBI under the Liquidity Adjustment Facility (LAF).

Why Invest in Nippon India Dynamic Bond Fund

High Quality: The fund would invest in SDLs & PSU Bonds. At present, predominantly into SDLs

Liquidity: The investor can exit anytime from the fund subject to exit load

Less Volatility: The current portfolio strategy of roll down aims to minimize the volatility in return, provided investments are held till the intended 'maturity' period

Portfolio Features as on December 31, 2024

Weighted Average YTM*	7.18%
Modified Duration	4.36 Years
Weighted Average Maturity	5.44 Years

*In case of semi annual YTM, it has been annualised

Rating Profile as on December 31, 2024

Note: Above mentioned current investment strategy is based on the prevailing market conditions and is subject to change within the limits of the SID basis the fund manager's view.

Risk factors: Trading volumes and settlement periods may restrict liquidity in debt investments. Investment in Debt is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures. The NAV may also be subjected to risk associated with investment in derivatives, foreign securities or script lending as may be permissible by the Scheme Information Document.

Disclaimers: The information herein above is meant only for general reading purposes and the views being expressed only constitute opinions and therefore cannot be considered as guidelines, recommendations or as a professional guide for the readers. Before making any investments, the readers are advised to seek independent professional advice, verify the contents in order to arrive at an informed investment decision.
