Nippon Life India Asset Management Limited (NAM India) is one of the largest asset managers with more than 28 years of experience in managing wealth of investors with a robust distribution network in India.

To cater to the increasing demand for passive management, we offer a variety of Exchange Traded Funds (ETFs) under “Nippon India ETFs”. Currently, we offer eighteen equity ETFs – benchmarked against Nifty Bank TRI, Nifty 100 TRI, Nifty 50 TRI, Nifty Midcap 150 TRI, Nifty India Consumption TRI, Nifty Dividend Opportunities 50 TRI, Nifty 50 Value 20 TRI, Nifty Next 50 TRI, Nifty Infrastructure TRI, Nifty50 Shariah TRI, Nifty PSU bank TRI, Nifty CPSE TRI, Nifty IT TRI, Nifty Pharma TRI, Hang Seng TRI, S&P BSE Sensex TRI, S&P BSE Sensex Next 50 TRI & Nifty Auto TRI; five debt ETFs – benchmarked against Nifty 8-13 yr G- Sec Index, Nifty CPSE Bond Plus SDL Sep 2024 50:50 Index, Nifty SDL Apr 2026 Top 20 Equal Weight Index, Nifty 5 Yr Benchmark G-Sec Index & Liquid ETF in money market space and two commodity ETFs – based on domestic prices of Gold and Silver.

Why Equity ETF?

- ▶ **Ease of transaction** - Can be easily bought / sold like any other stock on the exchange through terminals spread across the country
- ▶ **Ease of Liquidity** - Can be bought / sold anytime during market hours (subject to availability of buyer/seller) at prices prevailing in the market. Thus, investor transacts at real-time prices.
- ▶ **Low Cost** - Generally less expensive than investing in multiple individual securities.
- ▶ **Other Special Features**
 - Instant diversification through exposure to a large number of stocks by purchasing as low as 1 unit
 - Buying / selling at close to live price and not end-of-day, also ability to put limit orders
 - Authorised Participants / Large investors can buy directly from the AMC at Live Prices in creation unit size[^]

Strategies used through Index based Equity ETFs

- ▶ **Liquidity Management** - ETFs can be used for a given percentage of each asset class to provide a liquidity buffer across the asset allocation
- ▶ **Portfolio Completion** - ETFs allow investors to gain exposure to an asset class that is under-represented in the asset allocation
- ▶ **Cash Equitization** - ETFs assist in remaining fully invested into equity as per the allocation model, while maintaining liquidity, thus minimizing the cash drag effect on the portfolio
- ▶ **Portfolio Transitions** - Since ETFs are passive funds, they may help maintain market exposure while there are changes in sector/ stock allocations in a portfolio, hence avoids the risk of missing any market movement

About Nifty50 Shariah Index

Investors should note that in accordance with its investment objective, Nippon India ETF Nifty 50 Shariah BeES only invests in Securities which are represented in the Nifty50 Shariah Index. However, Nippon India ETF Nifty 50 Shariah BeES does not represent itself to be a Shariah compliant scheme. In particular Nippon India ETF Nifty 50 Shariah BeES has not appointed a Shariah board and currently does not follow any Shariah dividend purification process.

Therefore the following description of the Shariah process relates to the Nifty50 Shariah Index rather than the Scheme itself.

Screening Partner:

NSE Indices Limited has contracted with Taqwa Advisory and Shariah Investment Solutions (TASIS) to provide the Shariah screens and filter the stocks based on these screens.

Taqwa Advisory and Shariah Investment Solutions (TASIS) is India's premier Shariah Advisory institution in the field of business and finance. For the last many years TASIS is at the forefront in providing Shariah consultancy, monitoring and certification to many of India's reputed organizations, including those owned by the central and state government too. TASIS played a key role in promoting India's first shariah index and has now joined National Stock Exchange in providing shariah consultancy and screening services.

Shariah Screening Process

Business Screening:

Activities which are not permitted under Shariah are those which involve engaging in interest earning businesses or in those businesses which are mostly harmful to human society and disallowed by Shariah. Thus companies engaged in promoting promiscuity, violence, vulgarity and businesses affecting the environment are also considered Shariah non-compliant. Hence all companies which are primarily into the following activities are screened out on the business parameter:

- Conventional financial services such as banks, insurance companies, finance and investment companies, stock broking etc.
- Production, sale and marketing of food and beverages such as Pork, Alcohol, Tobacco and such other items etc.
- Companies involved in production or distribution of vulgar entertainment, such as film and other recreational activities where vulgarity, promiscuity is a part and parcel of the business undertaken / promoted
- Hotels and restaurants (providing products or entertainment not permitted under Shariah)
- Gambling, Narcotic drugs, etc.

Financial Screening:

Since interest-based transactions are prohibited by Shariah, companies passing the business screening stage are further screened to ensure that their dealings involving interest-based debt or earnings out of / deployment of funds on interest are within the maximum tolerance limits set by Shariah scholars. There are certain variations in these tolerance limits based on place and time. To remain on the conservative side from a Shariah adherence perspective, TASIS has adopted financial screening norms which are more conservative than those followed by its peers and also justified by empirical studies of the Indian environment. TASIS norms are given below:

- Interest based-debt should be less than or equal to 25% of Total Assets.
- Interest income plus returns (currently considered @7.5%) from interest-based investments should be less than or equal to 3% of the total income.
- Receivables plus cash and bank balances should be less than or equal to 90% of Total Assets.

Income Purification Ratio (IPR)

For full compliance with Shariah law, investors are required to purge the pro rata portion of interest income accrued on their holding of shares in a company.

Index Eligibility Criteria:

Eligibility Criteria for Selection of Constituent Stocks:

- The current constituents of the NIFTY 50 index are screened for Shariah compliance, those that are compliant form the NIFTY50 Shariah.
- The company should have a listing history of 6 months. A company which comes out with an IPO will be eligible for inclusion in the index, if it fulfills the normal eligibility criteria for the index for a 1 month period instead of a 6 month period.
- Stocks that meet above mentioned criteria and are also Shariah compliant form part of NIFTY50 Shariah Index.
- Weightage of each stock in the index is calculated based on its free-float market capitalization such that no single stock shall be more than 33% and weightage of top 3 stocks cumulatively shall not be more than 62% at the time of rebalancing.

Index Re-Balancing:

Monthly shariah compliance screening is carried out by shariah screening partner of NSE Indices Limited. In case of any replacements as part of monthly Shariah compliance, the same will be implemented from the last working day of respective month.
