Current Investment Philosophy

- The scheme employs various strategies which seek to exploit available arbitrage opportunities in markets along with pure equity investments.
- The stock selection strategy is a blend of top down and bottom up approach without any sector or market capitalization bias.
- All companies selected are analysed taking into account various business fundamentals like nature & stability of business, prospects of future growth & scalability, financial discipline & returns, valuations in relation to broad market & expected growth in earnings, the company's financial strength & track record
- **Fine Blend of Large & Midcaps**
 - GARP (Growth at Reasonable Price) strategy
 - ~70 – 75% of equity in large caps
 - Track divergence in valuation between large & midcaps in the same sector & also across sectors
 - Alpha Creation from Sector & Stock Deviations
- **Arbitrage Strategy**
 - Completely hedged position
 - Seek to generate income through arbitrage opportunities arising out of pricing mismatch
 - Aims to have prudent balance of safety, returns and liquidity
- **Accrual Strategy with Moderate Duration**
 - Seek to maintain a fine balance between liquidity and credit risk
 - Focus on accrual through investments in medium to long term corporate bonds with optimal liquidity
 - Moderate Portfolio Duration of 2.5 to 3.5 years depending on Interest Rate Scenario
 - Capture Active Spread actively
