## Nippon India Multi Asset Allocation Fund

Asset allocation works potentially best when one stays true to the strategy irrespective of market conditions. This is because different asset classes follow different cycles, and it is very difficult to predict their behaviour.

Nippon India Multi Asset Allocation Fund stays invested across asset classes<sup>#</sup> and endeavours to optimise the risk-adjusted returns at all times for achieving your goals.

## Asset Allocation is considered to be Key to Long term wealth creation

#According to a Study in 2001 "More than 90% of the portfolio returns are based on asset allocation decisions".
