CURRENT INVESTMENT PHILOSOPHY

The fund seeks to invest min 25% investment each in large, mid and small cap companies. Investment in large caps may help to capture market movements & aims to ensure liquidity in volatile times while exposure to niche themes (primarily mid/small cap companies) having scalable business models aims to offer alpha

The fund endeavours to identify opportunities ahead of the market

High conviction investment strategy with a focus on 'growth at reasonable valuations'

The fund follows a combination of top down and bottom up approaches and aims to take active sector calls.

The fund is focused on key themes like:

- Financials** – portfolio maintains allocation towards large banks and insurance companies
- Consumer** – secular growth in discretionary spending should continue given lower penetration rates, rising disposable incomes and increasing aspirations. Positive outlook of a cyclical recovery in mass consumption backed by buoyant rural sentiments, various fiscal schemes and tax cuts should improve disposable income for consumers.
- Industrials** – capex cycle revival with long sustainable opportunities (PLI schemes, Localization, China Plus One)
- Utilities** – better valuations relative to growth outlook for the next few years

WHY INVEST

- ▶ The fund invests in combination of market leaders, sustainable alpha creators and emerging themes.
- ▶ The fund aims to be well positioned to capture the current market opportunity and the likely shift in environment as economy stabilizes
