Nippon Life India Asset Management Limited (NAM India) is one of the largest asset managers with more than 28 years of experience in managing wealth of investors with a robust distribution network in India.

Why Index Fund?

- ▶ **Less of Ambiguity:** The Index funds investment strategy & stock selection is clearly defined, holding stocks as per the underlying Index in the same weightages (subject to expense ratio & tracking error).
- ▶ **Diversification** – Buying a single unit offers diversification benefit in the entire index companies.
- ▶ **Low Cost** – Generally less expensive than investing in multiple individual securities/active equity fund. (Low cost with respect to Total Expense Ratio)

Strategies used through Index based Equity Index Funds

- ▶ **Liquidity Management** – Index funds can be used for a given percentage of each asset class to provide a liquidity buffer across the asset allocation.
- ▶ **Portfolio Completion** – Index funds allow investors to gain exposure to an asset class that is under-represented in the asset allocation.
- ▶ **Cash Equitization** – Index funds assist in remaining fully invested into equity as per the allocation model, while maintaining liquidity, thus minimizing the cash drag effect on the portfolio.
- ▶ **Portfolio Transitions** – Since index funds are passive funds, they may help maintain market exposure while there are changes in sector/stock allocations in a portfolio, hence avoids the risk of missing any market movement.

Nippon India Nifty 50 Value 20 Index Fund

Investment Objective Nippon India Nifty 50 Value 20 Index Fund

The investment objective of the scheme is to provide investment returns closely corresponding to the total returns of the securities as represented by the Nifty 50 Value 20 Index before expenses, subject to tracking errors. However, there can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

Why Invest in Nippon India Nifty 50 Value 20 Index Fund

- **Value Strategy for Portfolio Construction** – Exposure to quality stocks selected based on key value parameters like high ROCE, low PE Ratio, low PB Ratio and high Dividend Yield
- **Blue Chip Value Companies** – Index contains top 20 fundamentally driven value bluechip companies filtered from Nifty 50 index universe
- **Reduce Risk** – Elimination of non-systematic risks like stock picking and portfolio manager selection, via investing in the Nifty 50 Value 20 stocks
- **Opportunity** – Will allow non demat account holders to seek exposure to 20 value-based stocks from Nifty 50 via investing in Nippon India Nifty 50 Value 20 Index Fund
- **SIP investments** – Investors can avail the benefit of Systematic Investment Plan (SIP)
- **Low Cost** – Exposure to the value stocks via low cost index fund

About NIFTY 50 Value 20 Index

Overview

The NIFTY50 Value 20 Index is designed to reflect the behaviour and performance of a diversified portfolio of value companies forming a part of NIFTY 50 Index. It consists of the 20 most liquid value blue chip companies listed on NSE. The NIFTY50 Value 20 Index has been computed historically from January 01, 2009.

At the time of rebalancing of shares/ change in index constituents/ change in investable weight factors (IWFs), the weightage of the index constituent (wherever applicable) is capped at 15%. Weightage of such stock may increase beyond 15% between the rebalancing periods.

Eligibility Criteria for Selection of Constituent Stocks

- The company should be a part of NIFTY 50.
- Companies which are IRDA dividend norms compliant shall be considered eligible to be included in the index.
- Companies are selected on the basis of ROCE, PE, PB and DY.
- Companies with relatively lower PE and PB, while higher DY and ROCE are selected.

Index Re-Balancing:

Index is re-balanced on annual basis and implemented from last trading day of December

Source: NSE Indices Ltd.

Note: The performance of the scheme shall be benchmarked to the Total Return (TRI) variant of the Index chosen as a benchmark.
