Nippon Life India Asset Management Limited (NAM India) is one of the largest asset managers with more than 28 years of experience in managing wealth of investors with a robust distribution network in India.

Why Index Fund?

- ▶ **Less of Ambiguity:** The Index funds investment strategy & stock selection is clearly defined, holding stocks as per the underlying Index in the same weightages (subject to expense ratio & tracking error).
- ▶ **Diversification** – Buying a single unit offers diversification benefit in the entire index companies.
- ▶ **Low Cost** – Generally less expensive than investing in multiple individual securities/active equity fund. (Low cost with respect to Total Expense Ratio)

Strategies used through Index based Equity Index Funds

- ▶ **Liquidity Management** – Index funds can be used for a given percentage of each asset class to provide a liquidity buffer across the asset allocation.
- ▶ **Portfolio Completion** – Index funds allow investors to gain exposure to an asset class that is under-represented in the asset allocation.
- ▶ **Cash Equitization** – Index funds assist in remaining fully invested into equity as per the allocation model, while maintaining liquidity, thus minimizing the cash drag effect on the portfolio.
- ▶ **Portfolio Transitions** – Since index funds are passive funds, they may help maintain market exposure while there are changes in sector/stock allocations in a portfolio, hence avoids the risk of missing any market movement.

Nippon India Nifty Midcap 150 Index Fund

Investment Objective : Nippon India Nifty Midcap 150 Index Fund

The investment objective of the scheme is to provide investment returns closely corresponding to the total returns of the securities as represented by the Nifty Midcap 150 Index before expenses, subject to tracking errors. However, there can be no assurance or guarantee that the investment objective of the Scheme will be achieved.

Why Invest in Nippon India Nifty Midcap 150 Index Fund

- **Segment Exposure** – Provides exposure to midcap segment of market, as the fund will invest in well diversified Nifty Midcap 150 index constituents spread across key industries.
- **Reduce Risk** – Elimination of non-systematic risks like stock picking and portfolio manager selection, via investing in the entire midcap stock basket.
- **Size Migration** – Aim to participate in the growth story of many of the midcap stocks having potential of becoming large caps.
- **Opportunity** – Will allow non demat account holders to seek exposure to midcap segment of the market via investing in Nippon India Nifty Midcap 150 Index Fund.
- **SIP investments** – Investors can avail the benefit of Systematic Investment Plan (SIP).

About NIFTY Midcap 150 Index

Overview

Nifty Midcap 150 index represents the next 150 companies (companies ranked 101-250) based on full market capitalisation from NIFTY 500. This index intends to measure the performance of mid market capitalisation companies.

Eligibility Criteria for Selection of Constituent Stocks

1. The company should be a constituent of NIFTY 500
and Investible weight factor (IWF) of stock should be at least 0.10 (10% free float).
or 6 month average free float market capitalization of the stock should be at least 25% of the 6 month average full market capitalization of the of the existing smallest index constituent (prior to index review) by full market capitalization in NIFTY Midcap 150 as of the cut-off date.
2. Securities will be included if rank based on full market capitalisation is among top 225.
3. Securities will be included if full market capitalisation is 1.50 times of the last constituent in NIFTY Midcap 150.
4. Securities will be excluded if rank based on full market capitalisation falls below 275 or if constituents get excluded from NIFTY 500.
5. Eligibility criteria for newly listed security is checked based on the data for a one-month period instead of a six-month period.

Index Re-balancing:

Index is re-balanced on semi – annual basis. The cut-off date is January 31 and July 31 of each year, i.e. for semiannual review of indices, average data for six months ending the cut-off data is considered.

Source: NSE Indices Ltd.

Note: The performance of the scheme shall be benchmarked to the Total Return (TRI) variant of the Index chosen as a benchmark.
