**Nippon India Overnight Fund aims to generate optimal returns with low risk and high liquidity by investing in debt and money market instruments maturing on or before next business day.**

- ❖ A debt Mutual Fund which invests in debt and money market instruments with overnight maturity
- ❖ The fund predominantly invests in TREPS/Repo
- ❖ All underlying assets will have one business day maturity
- ❖ Offer an alternative to corporate and individual investors who may want to park their idle funds for one day to seven days
- ❖ Endeavors to provide investors with moderate income commensurate with relatively low risk along with higher liquidity

### Key Features of the Fund

- ❖ No Lock in Period
- ❖ In addition to week days, this fund can also be used as overnight/weekend funds parking destination
- ❖ No Entry and Exit Load in Nippon India Overnight Fund
- ❖ **Same Day Returns:** The fund will enable investors to earn same day returns since purchase takes place on previous day's NAV
- ❖ **Weekend Parking:** Just like liquid funds, NAV of Nippon India Overnight fund will be declared on Sunday as well, so returns can be earned over the weekend by parking the working capital instead of keeping funds idle
- ❖ Generally, Redemptions on a T+1 basis
- ❖ Aims to minimize interest rate risk
- ❖ Nippon India Overnight Fund endeavors to invest in high rated instruments (Debt & Money market instruments), signifying reduced probabilities of loss from credit defaults
- ❖ **Maturity:** The fund intends to invest in securities/instruments maturing on or before next business day

### Who should invest?

- ❖ Corporates/HNIs who wants to manage their short-term liquidity
- ❖ Suitable for investors with investment horizon of 1 day to 7 days
- ❖ Investors looking for alternate investment avenues to park idle surplus funds for very short term
- ❖ Investors looking for higher liquidity options with relatively low risk for their investments

**Note:** Above mentioned current investment strategy is based on the prevailing market conditions and is subject to change within the limits of the SID basis the fund manager's view.

**Risk factors:** Trading volumes and settlement periods may restrict liquidity in debt investments. Investment in Debt is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures. The NAV may also be subjected to risk associated with investment in derivatives, foreign securities or script lending as may be permissible by the Scheme Information Document.
